» Judgment and Decision Making

- Judgment
- Decision Making
- Business Savvy
- Big Picture Thinking
- Risk and Reward
- Perspective
- Foresight
- Mistakes

MBI Leadership Assessment (continued)

Benefits of Our Assessment

- **Efficient and Confidential** – The assessment is conducted online and is completely confidential.
- **High Rate of Response** – To ensure compliance from raters, the assessment can be completed in less than 10 minutes. Spending more time writing comments is optional.
- **No redundant questions** – The questions are clear and concise. This eliminates the need to ask the same questions multiple ways.
- **Comprehensive** – The 360 feedback report includes all essential competencies and skills for effective leadership, and can include feedback from up to 25 raters.

The Assessment Process

1. **Set-up:** We set up the assessment and then enter the list of raters.
2. **Feedback:** The system sends out reminder emails to ensure a high response rate.
3. **Report:** Once we have sufficient feedback (usually within about two weeks), we generate a comprehensive report showing a successor's strengths and weaknesses, along with written comments from raters.
4. **Review:** We meet with the stakeholders to review the assessment results, offer perspective and insights, and suggest a plan of development.
